Product Description

- **190 grams** - one of the lightest, comfortable saddles available.
- Less material between your thighs **reduces friction and increases wattage** to the pedals.
- **Less pressure** through the perineal region promotes increased blood flow.
- Works **great with upright or aero-bar positions**.
- Flatter rear support surface distributes pressure away from your sensitive tissues.
- Anatomically placed relief regions reduce sit-bone pressure to improve ride comfort.
